

CONTROL

JUDGE DOES:

Change nothing. Scan.

SARIYA SHOULD:

Expected: all within limits.

F1 MISSING BAR

JUDGE DOES:

Pull one bar out of the mesh.

SARIYA SHOULD:

Expected: count 4 of 5; 'outside limits'.

F2 WIDE SPACING

JUDGE DOES:

Slide one mesh bar so one gap is about 80 mm.

SARIYA SHOULD:

Expected: '80 +/- 3 mm c/c', limit 65. Tape it.

F3 END ZONE

JUDGE DOES:

Slide the 2nd cross piece from the left end of the beam into the middle.

SARIYA SHOULD:

Expected: 'rings at 100; drawing says 50 for first 150 mm. Add 1.'

F4 NEAR LIMIT

JUDGE DOES:

Slide one bar so one gap is about 72 mm (limit 65).

SARIYA SHOULD:

Expected at 0.8 m: 're-scan'. At 0.3 m: a verdict.

F5 FAR SCAN

JUDGE DOES:

Scan from 0.8 m instead of 0.3 m.

SARIYA SHOULD:

Expected: wider bands, 're-scan' where within error.

F6 TORCH OFF

JUDGE DOES:

Turn the phone torch off and shade the mesh with a hand.

SARIYA SHOULD:

Expected: blur guard rejects frames or asks for light.

F7 COVER

JUDGE DOES:

Skip the cover reading when the app asks.

SARIYA SHOULD:

Expected: 'cover: needs a tape reading' (never guessed).

F8 THIN BAR

JUDGE DOES:

Weigh the spare 280 mm slab bar as a 10.

SARIYA SHOULD:

Expected: ~111 g over 280 mm; app says 8 mm class, not 10.

F9 HALF CARD

JUDGE DOES:

Cover a third of the card with your hand.

SARIYA SHOULD:

Expected: still measures from the visible corners, or abstains.

F10 REPLAY

JUDGE DOES:

Send yesterday's signed pack again.

SARIYA SHOULD:

Expected: rejected, this record was already signed (same hash).

F11 NO DRAWING

JUDGE DOES:

Clear the 5-field spec.

SARIYA SHOULD:

Expected: measurement-only mode,
values, no verdict.

F12 LOWER BARS

JUDGE DOES:

Slide the second bar of the lower layer about 30 mm toward the back.

SARIYA SHOULD:

Expected: 'lower bars, gap 2: 80 +/- 4', limit 65.
